INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of American Civil Liberties Union Foundation of Massachusetts:

We have audited the accompanying statements of financial position of American Civil Liberties Union Foundation of Massachusetts (a Massachusetts corporation, not for profit) (the Foundation) as of March 31, 2010 and 2009, and the related statements of activities and change in net assets, cash flows and functional expenses for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Civil Liberties Union Foundation of Massachusetts as of March 31, 2010 and 2009, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 9 to the financial statements, the March 31, 2009 accrued pension and accrued expenses were restated to properly reflect these balances as of March 31, 2009. This restatement resulted in an addition to net assets of \$15,566.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2010 AND 2009

(1) OPERATIONS, NONPROFIT STATUS AND SIGNIFICANT ACCOUNTING POLICIES

OPERATIONS AND NONPROFIT STATUS

The Foundation is the Massachusetts affiliate of the American Civil Liberties Union Foundation (the National Foundation), a national nonprofit corporation established in 1920 to defend the freedoms guaranteed in the Constitution and Bill of Rights and educate the population about civil liberties through their litigation and education programs. The Foundation is also affiliated with the American Civil Liberties Union of Massachusetts, Inc. (the Union) through shared management.

The Foundation is exempt from Federal income taxes as an organization (not a private foundation) formed for charitable purposes under Section 501(c)(3) of the Internal Revenue Code. The Foundation is also exempt from state income taxes. Donors may deduct contributions made to the Foundation within the Internal Revenue Code requirements.

SIGNIFICANT ACCOUNTING POLICIES

The Foundation prepares its financial statements in accordance with generally accepted accounting standards and principles established by the Financial Accounting Standards Board (FASB). References to U.S. GAAP in these footnotes are to the FASB Accounting Standards Codification.

Net Assets

Unrestricted Net Assets

Unrestricted net assets are those net resources that bear no external restrictions and are generally available for use by the Foundation. The Foundation has grouped its unrestricted net assets into the following categories:

Operating net assets represent amounts which are available for operations and bear no external restrictions

Bill of Rights Trust net assets represent amounts which have been designated by the Board of Trustees as funds functioning as an endowment (see page 10).

Property and equipment net assets represent amounts expended and resources available for property and equipment.

Revenue Recognition

The Foundation reports contributions, grants and bequests as temporarily restricted support if they are received with donor stipulations that limit the use of the donated asset. When a donor's stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities and changes in net assets as net assets released from restrictions. Donor restricted contributions, grants and bequests received and satisfied in the same year are recorded as unrestricted net assets. Unrestricted contributions, grants and bequests are recognized when received or unconditionally committed.

Special event revenue is recorded when pledged or when event occurs.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Revenue

Deferred revenue consists of funds received in advance of being earned.

Expense Allocation

Expenses related directly to a program are distributed to that program while other expenses are allocated to programs based upon management's estimate of the percentage attributable to each function.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For financial statement purposes, management considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Certificates of Deposit

Certificates of deposit consist of two certificates of deposit (CDs) with initial maturities of five to eleven months and mature at various dates through August, 2010.

Allowance for Doubtful Accounts

An allowance for potentially uncollectible accounts and pledges receivable is provided based upon management's assessment of potential defaults. This assessment includes such factors as collection history and type of receivable. No allowance was deemed necessary as of March 31, 2010 and 2009.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment and Depreciation

Purchased property and equipment are recorded at cost. Donated equipment is recorded at fair market value at the time of donation. Renewals and betterments are capitalized while repairs and maintenance are charged to expense as they are incurred. Depreciation is computed using the straight-line method over the following estimated useful lives:

Tratimo a 4 a d

	Useful Lives
Computer equipment Leasehold improvements Office equipment Furniture and fixtures	5 years Term of lease 5 – 7 years 7 years

Donated Legal Services

The Foundation receives donated services in support of various aspects of its programs. The value assigned to these services as of March 31, 2010 and 2009, based on the donor's estimate of the fair value of services provided, was \$6,984 and \$13,358, respectively, and is reflected as donated legal services in the accompanying financial statements.

Advertising Costs

The Foundation expenses advertising costs as they are incurred.

Beneficial Interests

The Foundation is a beneficiary under the terms of various trust agreements and wills. The exact value of such interest and the time at which rights to these interests become vested in the Foundation is dependent upon certain future events over which the Foundation has no control. Accordingly, the Foundation has not recorded these interests in the accompanying financial statements.

Fair Value

The Foundation follows the Fair Value Measurements and Disclosure Standards under U.S. GAAP. These standards define fair value, describe a framework for measuring fair value, and specify required disclosures. Fair value, where applicable, is determined using a hierarchy that prioritizes the inputs and assumptions used to measure fair value. The three levels of the fair value framework are as follows:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 Inputs other than quoted prices in active markets that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3 Inputs that are unobservable.

(Continued)

(1) <u>OPERATIONS, NONPROFIT STATUS AND SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value (Continued)

A qualifying asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement.

Investments

Investments (see Note 3) consist of the Foundation's holdings of marketable securities and an alternative investment held for purposes of financial returns. The alternative investment consists of an interest in CRB Media, LLC in which the Foundation is a member. Distributions reduce the Foundation's cost basis. Valuation of this alternative investment is estimated by the Foundation's management using data obtained from CRB Media, LLC. Therefore, the value presented herein for this investment is not necessarily indicative of the amount that the Foundation could realize in a current transaction. The estimated value may differ significantly from the value that would have been used had a ready market existed and that difference could be material. Future confirming events will also affect the estimates of fair value, and the effect of such events on those estimates of fair value could be material.

Investment income includes interest, dividends and mutual fund distributions of investments which are recorded when earned or declared. Realized gains and losses on investment transactions are recorded based on the average cost method. Unrealized gains or losses are recorded based upon changes in the fair market value of investments held.

Bill of Rights Trust

The Bill of Rights Trust (see Notes 3 and 6) represents the Foundation's unit holdings in the National Endowment (the National Endowment) held by the National Foundation, which is a separate organization holding a common investment pool in which the Foundation and other affiliated Foundations may participate. The National Endowment's underlying investments are primarily cash, fixed income securities and international securities which are publicly traded.

Investment income includes interest and distributions of investments which are recorded when earned or declared. Realized gains and losses on investment transactions are recorded based on the average cost method.

Subsequent Events

The preparation of financial statements in accordance with U.S. GAAP requires management to disclose the date through which subsequent events have been evaluated for possible recognition or disclosure in the accompanying financial statements. Subsequent events are transactions or events that occur after the statement of financial position date but before the financial statements are issued or available to be issued. The accompanying financial statements include the evaluation of subsequent events that have occurred through November 15, 2010 which is the date the financial statements were available to be issued.

Uncertainty in Income Taxes

During the fiscal year ended March 31, 2010, the Foundation adopted the *Accounting for Uncertainty in Income Taxes* standard which requires the Foundation to report uncertain tax positions, related interest and penalties, and to adjust its assets and liabilities related to unrecognized tax benefits and accrued interest and penalties accordingly. As of March 31, 2010, the Foundation determined that there are no material unrecognized tax benefits to report.

Information returns filed for the three fiscal years ended June 30, 2009 remain subject to examination by the Internal Revenue Service and the Commonwealth of Massachusetts. The Foundation does not expect that the amounts of unrecognized tax benefits will change significantly within the next twelve months.

(5) <u>RETIREMENT PLANS</u>

The Foundation participates in a single-employer, non-contributory, defined benefit retirement plan through the National Union. The plan covers all employees satisfying minimum age and service requirements. Benefits are paid to eligible employees at retirement based on years of services and compensation.

The total pension expense is allocated to the Foundation based on the number of participating employees. Pension expense was \$67,797 and \$52,117 for the years ended March 31, 2010 and 2009, respectively, and is included in employee benefits in the accompanying statements of functional expenses.

Accumulated plan benefits information, as provided by consulting actuaries, has not been distinguished from the benefits of the other organizations participating in the pension plan and, accordingly, such information is not presented herein. At March 31, 2010 and 2009, the financial statements of the pension plan reflected \$47,699,569 and \$31,259,050 in net assets available for benefits and \$62,707,183 and \$50,722,341 in accumulated plan benefits, respectively.

The Foundation also participates in a qualified salary reduction, 401(k) plan through the National Union as of April 1, 2009. The salary reduction plan covers substantially all of its employees who have met the eligibility requirements. The Foundation will match 100% of the first 1% an employee contributes to the plan plus 50% of the next 5% an employee contributes. There is also an automatic 2% employer contribution made each pay period. The Foundation's contributions vest after two years of employment. Total contributions to the plan for the year ended March 31, 2010 was \$3,966 and is included in employee benefits in the accompanying statements of functional expenses.

(6) **BILL OF RIGHTS TRUST**

During 1997, the National Foundation established the Bill of Rights Trust (the Trust). The purpose of the Trust is to build an enduring endowment to carry out the work of the National Foundation and affiliate foundations in protecting, preserving and expanding the civil liberties of all persons in the United States. The Trust has 100,000,000 authorized units (of which 5,625,026 and 5,610,104 are outstanding as of March 31, 2010 and 2009, respectively) which are issued to or among the National Foundation and affiliate foundations based upon their respective interest in the Trust. Unit shares have a unit value based upon the fair value of the net assets of the Trust divided by the total number of unit shares outstanding. The Trust provides for annual distributions based upon a percentage of the fair value of each unit share. The Foundation owns 102,891 unit shares in the Trust with a cost basis of \$771,348 and \$823,870 as of March 31, 2010 and 2009, respectively (see Note 3). The investment goals of the Trust are to invest assets in a prudent manner that will balance a reasonable distribution to the National Foundation and affiliated foundations and a long-term growth in the value of the assets of the Trust.

These funds are unrestricted. The funds, however, are subject to certain withdrawal limitations as disclosed in the Trust agreement. Under the National Foundation's spending policy, the Foundation receives 4 percent of the three-year average of the fair value of the investments at the beginning of each of the preceding three fiscal years. Distributions are typically in the form of cash or additional unit shares of the fund having a fair market value at the date of distribution as defined in the Trust agreement. As of March 31, 2010 the National Foundation determined the annual distribution to the Foundation to be \$52,522. The total distribution outstanding, net of fees related to managing the Foundation's share in the Trust, as of March 31, 2010 is \$46,464 which is included in due from National in the accompanying statements of financial position. During 2009, the Foundation received additional units of the Trust in lieu of a cash distribution.

The Foundation follows guidance related to treatment of Endowment of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prüdent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds (the Act). This provides guidance on the net asset classification of donor-restricted endowment funds for not-for-profit organizations. Under the Act, subject to the intent a donor expressed in the gift instrument, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established. Under this policy, in no event shall such distribution reduce the value of the permanently restricted endowment below the historical dollar value. Endowment income is restricted for program purposes.

The Foundation has designated its investment in the Bill of Rights Trust as funds functioning as an endowment. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported on the existence or absence of donor-imposed restrictions.

During 2009, the Foundation formed the Article V fund (see Note 3). The purpose of this fund is to support the operations of the Foundation. The Foundation has immediate access and has the ability to withdrawal from this fund upon their discretion. During 2010, the Foundation received a distribution of \$813 from this fund. There were no distributions during 2009.
